

2021 AJSV MENTORING PROGRAM

Help us shape the next generation of leaders within the Australia-Japan space.

- Are you a young professional or alumni of an exchange program seeking to improve your professional engagement within Australia and Japan relations?
- Are you a mid-to-high level executive ready to inspire and help contribute to the next generation of leaders in the Australia-Japan space?
- This flexible blended (online + in-person) program provides an opportunity to develop participants' professional insights and networks while enhancing leadership skills and contributing to wider engagement between Australia and Japan.

[As a result of the AJSV Mentoring Program] I learned how to develop a positive professional reputation, how to negotiate for new professional opportunities and general career skills to ensure my employment is what I'm interested in, will challenge me and will ensure I keep developing.

– 2020 Mentee Testimonial

I think one of the key insights I gained through [the AJSV Program was learning that]] career paths are not necessarily linear and that it is best to always give things a try and take on new opportunities. Whether working in Japan or Australia, there are lots of ways to connect the two countries in a professional sense.

– 2020 Mentee Testimonial

I was thrilled to support my mentee on how to conceptualise the ideal role, make contact with target organisations and possible advisers, how to work to your strengths and the value of your Japan experience.

– 2020 Mentor Testimonial
